

COURSE DATE
17th & 18th Oct 2019

BIM CONSTRUCTION PROJECT MANAGER COURSE

by ACPM and BINA INITIATIVES

WHO SHOULD ATTEND THIS COURSE?

Property Development CEOs,
Development Managers,
Project Managers, Project
Coordinators, Construction
Managers, Quality
Assurance Managers,
Contract Administrators,
Document Controllers,
Financial Controllers,
Engineers, Architects,
Quantity Surveyors,
Consultants, and building
related professionals who
want to enhance their career
and knowledge in BIM for
construction project
management

COURSE SYNOPSIS

Building Information Modeling (BIM) is the current Buzzword amongst Architecture, Engineering & Construction (AEC) Professionals and Project Managers in Malaysia. This course outlines the need for construction project managers to be familiar with and able to manage the BIM process across the project lifecycle while collaborating with the design professionals.

Building Information Modelling (BIM) method and process involves a new parametric three-dimensional modelling technology that allows the AEC professionals of various disciplines to explore the building and construction project digitally, before it is built. BIM can assist complex multi-discipline content model integration and collaboration for all stakeholders from owners, developers, designers, builders and fabricators across the construction process. Upon completion from this course, the participant will be at the forefront of a new age in BIM knowledge and will be attractive employment candidates to the AEC industry.

At the end of the two days course, successful participants will be awarded the BIM CONSTRUCTION PROJECT MANAGER CERTIFICATE by ACPM and Bina-Initiatives Sdn Bhd jointly. The course will be delivered by BIM Experts from Bina Initiatives Sdn Bhd and endorsed by ACPM.

COURSE OBJECTIVES

- Understand the whole BIM process to manage the project life cycle for construction area.
- Exposure to BIM terminology and tools.
- Understand how BIM facilitate or coordinate the design process
- **Learn to develop your own BEP and BIM Execution Plan**

BIM CONSTRUCTION PROJECT MANAGER COURSE

by ACPM and BINA INITIATIVES

About ACPM

ACPM is the Malaysian National Professional Association for Construction Project Managers and its Mission is to promote and advance all aspects of project management in construction-related fields covering government agencies, real estate development companies, project management consultancy to civil, mechanical, electrical and infrastructure companies. Its members include experienced personnel from allied professionals in the architectural, engineering and construction industry. It is the only professional body to have Certified Construction Project Managers as its Certified Members, besides ordinary members, associate members and corporate members

About Bina Initiatives

Bina Initiatives Sdn. Bhd. is part of South East Asia's largest implementation group of project management systems, providing Project, Portfolio and Risk Management solutions for organizations in the architecture, engineering, construction and manufacturing industries. At Bina Initiatives, we strive to help organizations in optimizing resources and the supply chain, reduce costs, manage changes, meet delivery dates and ultimately make better decisions. As a leading provider of quality and cost-effective project management and design management solutions, we have the expertise in adopting the best methodology in project management as well as design management processes in any environment. Through experiences we have garnered a strong portfolio of both private sector and public sector clients in the major industries especially in the AEC industry.

COURSE OUTLINE

DAY 1

- INTRODUCTION TO BIM
- BENEFITS FROM EMBRACING BIM
- BEP CREATION
- BIM PROJECT LIFECYCLE

DAY 2

- BIM DESIGN AND CONCEPTUALIZATION (PLAN)
- BIM DESIGN AND PRE-CONSTRUCTION (PLAN & DESIGN)
- BIM IMPLEMENTATION FOR CONSTRUCTION (IFC)
- ASSET MANAGEMENT
- BIM CASE STUDIES

COURSE FEE

NORMAL FEES: RM 1,500.00

MEMBER FEES: RM 1,350.00

ACPM Members: 10%

IEM-Project Management Technical Division Members: 10%

10% Discount for Early Registration Before 30th Sept 2019
